

SUMMARY

- Around 3 years' experience in IT industry as React JS web developer include experience in building dynamic and responsive web applications.
- Developed and maintained responsive and dynamic web applications using React.js, JavaScript, HTML, and CSS.
- Built reusable UI components, improving application modularity and performance.
- Integrated RESTful APIs and ensured seamless data communication between frontend and backend.
- Optimized application performance, reducing load time using techniques like virtual DOM and code splitting.
- Managed application state effectively using React Context API or Redux.
- Utilized Git for version control, collaborating with teams via GitHub and CI/CD workflows.
- Troubleshooted and debugged UI issues, ensuring a smooth user experience across devices.
- Worked with frontend build tools like Babel and npm/yarn for efficient development.
- Followed best practices in coding standards, accessibility, and responsive design principles.
- Collaborated with designers and backend developers, ensuring seamless integration and high-quality user interfaces.
- Strong understanding of SQL for backend integration and Git for version control.
- Experienced in analyzing and resolving user interface related issues.
- Adept at writing clean, maintainable code and collaborating with cross-functional teams to deliver high-quality user experiences.
- Hands-on experience with databases such as MySQL.
- Developed server-side logic and integrated front-end elements with server-side logic.
- Proficient in using JavaScript frameworks, particularly ReactJS, to build dynamic and scalable web applications.

Education: -

- Electronics and communication Engineering, 2021, KIET, Kakinada.

TECHNICAL SKILLS

Frontend Development:	HTML, CSS, JavaScript, React.js, Redux, NodeJs
UI/UX & Styling:	CSS, Bootstrap
Database & Query Language	SQL and good knowledge on Python
Version Control & CI/CD	GitHub

PROFESSIONAL EXPERIENCE

React JS Web developer | Jan 2022 – March 2025

ITC INFOTECH, BENGULURU

ITC Infotech is a global technology services provider, offering business-friendly digital solutions across industries like banking, healthcare, and manufacturing

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, ensuring seamless user experiences.

- Implemented interactive UI components and optimized performance utilizing ReactJS and modern frontend frameworks.
- Collaborated with backend teams to integrate SQL databases, enhancing data retrieval and application functionality.
- Worked on debugging and troubleshooting web applications, improving overall efficiency and reliability.
- Hands on experience with CSS, Bootstrap to improve user accessibility.
- Good understanding on backend technologies Python, NodeJS.
- Have been a good problem solver and a good team player.
- Have worked in Production support and providing quick resolution to the user.
- Engaging with clients to understand their business processes, challenges, and objectives related to their requirement.
- Created and provided a user manual to the client, explaining the overall workflow of the web application for easy understanding
- Delivered regular updates to the client while reviewing and implementing necessary changes to enhance usability
- Basic understanding of Linux operating systems and Linux commands.
- Utilized Git for version control in multiple web development projects, ensuring smooth collaboration and code management.

Environment: HTML, CSS, JavaScript, ReactJS, SQL, Apriso Process Builder, Visual Studio Code

PROJECTS

- SCHINDLER INSTALLATION EXECUTION SYSTEM(IES) | JavaScript, HTML, CSS, SQL, Apriso.

INSTALLATION EXECUTION SYSTEM is solution to help Field service for Installation and Commissioning of Elevators/Escalators. It provides typical fulfillment process flow along with mapping of raw material to manufacturing components and assembling those components

SKILLS

- **Industry Knowledge:** Web application Functional Analysis, Functional Testing, Data collection, Troubleshooting, Design documents.
- **Tools & Technologies:** Visual Studio Code, Apriso Process Builder.
- **Interpersonal Skills:** Multi-Tasking, Communication, Active Listening, Problem-Solving, Good team player.

COURSES

- Completed a course on **Web development** on Kodnest, Kakinada (Jun 2021– Aug 2021)
